Important Information About 9-1-1

When calling 9-1-1 always provide your name, wireless phone number and the location you are calling from. Remember, it's important to speak clearly. Stay on the line for as long as the 9-1-1 operator requires. Calls to 9-1-1 are free so take all the time that you need. Leave your handset turned on after hanging up in case the 9-1-1 operator needs to call you back. Please do not program 9-1-1 into your speed dial. This can lead to accidental calls that take up valuable emergency resources.

Calling 9-1-1 on your wireless device is subject to the same limitations as all wireless calls. If you are underground or too far away from a wireless antenna, the quality of your call may be affected or you may not be able to connect to the network. The Canadian Radio-television and Telecommunications Commission (the "CRTC") has created a Wireless Code so that consumers of retail mobile wireless voice and data services will be better informed of their rights and obligations contained in contracts with wireless service providers. You can find out more about the Wireless Code on the CRTC website at https://crtc.gc.ca/eng/phone/mobile/code.htm. The CRTC has also created a checklist of your rights as a consumer. You can read the checklist at https://crtc.gc.ca/eng/phone/mobile/prepay.htm.
